COYOTE VALLEY SPECIFIC PLAN DRAFT EIR

EIR COMMENTS

To be consistent with the California Environmental Quality Act (CEQA), comments or questions relating to the Coyote Valley Specific Plan Draft Environmental Impact Report (DEIR) should focus on the adequacy or accuracy of the information in the DEIR. Comments regarding the merits of the CVSP "project" should be submitted separately as general comments (A place for general comments has been designated on the back of this form.). Please submit your written comments on this card at this DEIR meeting, or to Jared Hart via the methods listed at the bottom of the page by 5:00 P.M. on June 29, 2007. (Note: Please write legibly. We will not be able to respond if we cannot read your comments.)

PLEASE USE THIS SPACE IF YOU HAVE COMMENTS ON THE ADEQUACY OR ACCURACY OF THE DEIR: DEIR states no existing bike route through Coyote

County Bike Plan shows multiple county wide corridors going through Coyote including Monterey and Santa Teresa.

Staff was given contact information about these at both task force and community meetings.

DEIR states no existing mechanism to count number of pedestrians or bicyclist for Level of Service. MTC and VTA Congestion Management have been doing so for years. Contact The Agencies' Bicycle Coordinators for details.

DEIR does not show impacts to existing transit users (68 is one of most used bus routes) and bicyclists transversing the Coyote Area.

Contact Information

Name: Bob Eltgroth Silicon Valley Bicycle Coalition

Address: 173 Giddings Ct. San Jose, CA 95139

E-mail (optional): eltgroth@garlic.com

Please return DEIR comment card during meeting, or
by mail to: Jared Hart, 200 E. Santa Clara Street, San José, CA 95113
by fax to: (408) 292-6055
by e-mail to: jared.hart@sanjoseca.gov
